Project Support Pack

We are experts in technologies related to Apache Cassandra, Apache Spark and Apache Kafka distributed systems. With years of experience in the Open Source world, we can guarantee professionality and reliability, thanks to a team of highly qualified experts.

> **Project Support Pack allows to bring our experience to the heart of your development project. Our experts will work both full-time and on-demand to enable you to plan and complete the development of cutting-edge applications and solutions based on Apache Cassandra, Spark and Kafka.**

We offer you two types of support:

- **Integrated support:** experts are available remotely or on site to work on the project alongside your teams.
- **Una tantum support:** when required, consultants with specific skills and experience will support you.

Project Support Pack includes the following steps:

- Data Model design & review.
- Kafka e tuning configuration & review.
- Spark.configuration & review.
- Architecture review.
- Driver configuration.
- Capacity planning.
- Coding Application.
- Operational support, monitoring and backup assistance.
- Consulting.

Results

- ✓ Full project support, by implementing and managing your application and infrastructure using Apache Cassandra, Spark and Kafka.
- ✓ Increased expertise of your team thanks to targeted specialist support.
- ✓ Design improvement and processes implementation and release, full time support for your team.
